Web Development
- PHP
- Next.JS (React)
- Laravel
- Tailwind CSS
- TypeScript
- JavaScript

Database
- MySQL
- PostgreSQL

PROFILE

I am a full-stack web developer with a strong focus on building functional, well-structured web applications. I enjoy working on real systems that involve authentication, dashboards, and data-driven features, not just static pages. I continuously improve my skills by exploring modern frameworks and technologies to deliver reliable and maintainable solutions.

EXPERIENCE

PT. Utama Sinergi Sejati (2023 - 2024)

- Developed a web-based incident reporting system used to record and monitor incidents occurring in the field.
- Contributed to the development of a mobile application for incident reporting.
- Built system prototypes for internal use and validation.
- Developed an Overall Equipment Effectiveness (OEE) monitoring prototype for factory machinery to support performance analysis.
